Importance: High

Burt,

We had a discussion on the TCT call last week about the hit / no hit criteria interpretation for the bioassays. It sounded like you had a proposal to move away from what was presented in the Problem Formulation, which I had some concerns about. Were you still going to send something around with your proposal so we can respond? Are we discussing / finalizing this point with the LWG tomorrow? If so, could you tell me where this issue stands?

Thanks,

Jennifer
